

## SPLEEN – TECHNICAL LEAFLET

### ROOM:

- = playing area/ stage size min. 7 m width x 6 m depth - bigger is better -
- = height of room/ stage min. 3,40 m - higher is much better -
- = dark floor or black dance floor
- = room must be completely darkened and without noise from outside
- = from every place the audience must be able to see the floor of the stage

### 6 PLACES TO HANG THINGS & 2 PLACES TO FASTEN ROPE ON THE WALLS :

- 1 = spotlight Source Four 750W – 36°/ 50°/ 70° (depending on height of room)
- 2 = small moon, app. 200 g
- 3 = snow machine, app. 1000 g
- 4 = spotlight 500 W
- 5 = spotlight Arri 500 W
- 6 = possibility to fasten a rope on sides of the stage at about 240 cm height (from floor of stage), must hold tension of about 80 kg
- 7 = backdrop 360 cm width (light)

\* we bring all this, including lights, except Source Four only if theatre can't provide it!

## ELECTRICITY / EQUIPMENT

- = two sockets (220V/16A), different circles
- = we bring all light and sound equipment
- = a ladder for construction (to ceiling of stage)
- = we need one technician for setting up and taking down

## TIME / AUDIENCE

- = setting up time from 10 h on day of performance (if 20h), min. 8 h before performance
- = admission of audience not more than 10 minutes before performance starts
- = playing time app. 65 minutes, no intermission
- = taking down and packing takes about. 90 minutes.
- = two hours before the performance we need the theatre quiet for preparation
- = attendance figure not more than 200

**These conditions are changeable, but please ask us in any case about necessary changes in advance!**
