

Der Hobbit - Technical leaflet

1. Stage:

- playing area (stage or pedestals) 9m x 8m (width x depth) - under certain circumstances it can be smaller, but we have to know in advance!
- height 1m if seating is at ground level, if rows of seats are ascending, accordingly lower
- height of stage area minimum 3,70m - higher is better!
- black floor, black curtains on side and back (we might decide to take them down if the walls look nice)
- distance from first row to stage 2m
- at two places towards the back and two places towards the front of the stage we need a possibility to hang something from the ceiling (ca. 5kg, see sketch of the stage)

2. Equipment:

- 2 sockets (220V/16A)
- a ladder for construction (to ceiling of stage)
- we bring our own light and sound, according to the room we need 4 spots min. with blue and yellow colour to make an atmospheric light for when the audience come in, controlled with light system of the house
- Pyro effects: Pyrocotton (Safex Flash Wool) and 1 theatre flash (Safex Power Flash BAM-PT1 0241 oder Mega Flash BAM PT1 0242) with heavy smoke development (air condition and fire alarm must be switched off)

3. Time:

- setting up time is minimum 6 h
- admission at the earliest 5 minutes before the beginning of the performance
- playing time ca. 70 minutes, without intermission
- taking down and packing up takes ca. 1 ½ hours

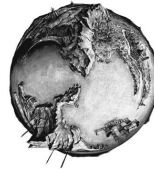

4. Technicians:

- we need one technician to help unload and for ca. 1 hour in beginning of setting up and for taking down, and one light technician for setting up the lights for the audience

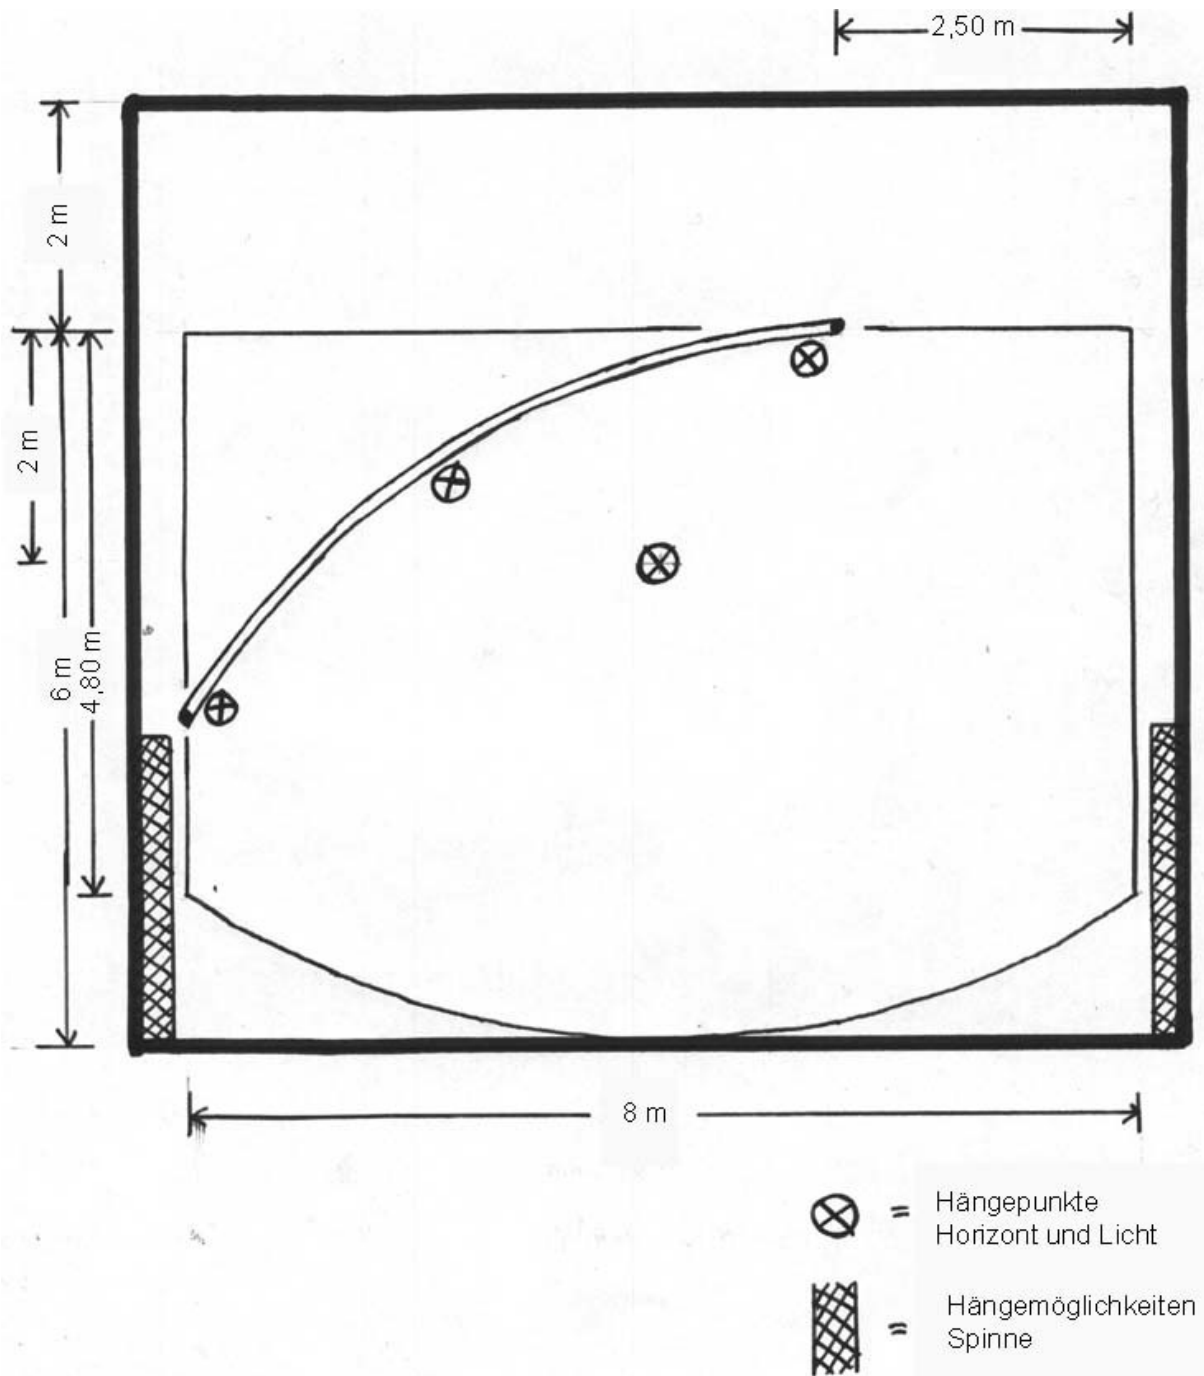

Please notice:

- everybody in the audience must be able to see the floor of the stage
- the room must be completely dark and without any noise from outside
- attendance figure not more than 100, from 8 years
- dressing room with mirror and sink
- parking place close to the stage for unloading
- one hour before the performance we need the theatre quiet for preparation

These conditions are flexible, but please ask us in any case about necessary changes!
